Optional handles are sold individually.

Customise The Look

Any furniture that features handles will be supplied with default handles, which in most cases, can be upgraded to a different colour finish to match your brassware. Units with wrap-over handles can be drilled to accommodate alternative styles, but please note this will leave visible holes on the inside of the unit where the original handle was positioned. Edyn & Keva ranges include colour-matched self-adhesive screw hole cover stickers, allowing bar-style handles to be fitted if desired. This table below is for recommendation only and we advise you to check compatibility of your chosen furniture and optional handles before purchasing.

RIMLESS FLUSHING

A must-have for modern homes, Rimless Flushing is the latest innovation in bathroom design loved by many for its improved hygiene, better flushing performance and super-sleek look.

Our range of Rimless Flushing Toilet Pans use a direct flush that propels water around the edge of a smooth pan, offering more effective and water-saving cleaning than conventional flushing systems. With no rim around the bowl, there are no hidden areas for germs or dirt to accumulate making it easier to clean and providing a more hygienic environment.

Rimless Flushing is available now across all Fully Enclosed, Open Back, Back-to-Wall and Wall Hung Toilets.
