FURNITURE COLLECTION

ÉALA

Exclusive Niko Bathrooms Design

The Éala range gives you the freedom to create a bathroom that's truly your own. Choose from two sizes, 60cm or 80cm, and two inviting finishes: classic White or soft Pistachio Green, both reminiscent of Ireland's natural landscape. Tailor your Éala unit with a choice of worktops, three distinctive handle collections to reflect your personality, and a selection of basins: glossy White ceramic for a touch of classic shine, or Matt White, Matt Black, and striking Matt Black Marble for a more contemporary feel.

The Éala range also comes with a hidden drawer feature, offering clever storage to keep your essentials neatly tucked away without compromising on style.

With Éala, elegance feels effortless and always uniquely yours.

RÍAN

Exclusive Niko Bathrooms Design

Rían empowers you to design your bathroom your way, modern, versatile, and, full of personality.

Rían is available in two practical sizes, 50cm and 60cm wall hung and floor standing options, each featuring a generous washbasin and two spacious drawers. No handles are needed, thanks to Rían's integrated handle design, which keeps the look clean and contemporary.

Express yourself with three distinctive colours: warm Mocha, playful Mauve Pink, or rich Chocolate Brown. Every detail in the Rían collection is thoughtfully crafted, blending everyday practicality with sleek design, so your bathroom feels welcoming and uniquely yours.

Let Rían be the pathway to a bathroom that's as individual as you are, designed with simplicity and personality.

INCLINE

The Inclinecollection is defined by its clean lines and distinctive integrated handles.

The collection is available in four versatile finishes: Oak, Walnut, Ash, and Grey. Vanity units come in both 60cm and 80cm widths to suit a variety of spaces, with matching tall boys in every finish for extra storage and a cohesive look.

Wood finishes are expertly laminated for authenticity and resilience, while the coloured options are finished in a durable lacquer, ensuring each piece stands up beautifully to daily use, year after year.

Incline is designed for those who appreciate thoughtful details and lasting quality, offering a refined backdrop for modern living.

MIRRORS & CABINETS COLLECTION

Our range of LED Mirrors and Mirror Cabinets offers the perfect combination of style, functionality, and modern design to enhance your bathroom.

LED Mirrors

Featuring integrated LED lighting, our mirrors provide soft, ambient illumination, ideal for detailed grooming, makeup application, or creating a relaxing atmosphere. The built-in demister function ensures a clear, fog-free reflection, even after the steamiest showers, adding both convenience and comfort to your routine.

Mirror Cabinets

Our mirror cabinets are crafted to offer both elegance and practicality, providing ample storage space to keep your bathroom organised and clutter-free. These cabinets feature sleek, minimalist mirrors that effortlessly enhance your bathroom's aesthetic, while their robust construction ensures lasting durability and a refined finish.

Together, our LED Mirrors and Mirror Cabinets bring modern design, convenience, and style to your bathroom, making them an essential addition to any home.

CERAMICS COLLECTION

www.nikobathrooms.ie

CERAMICS

How to Select Your Bathroom Toilet and What Are the Choices?

There is a lot to consider when choosing a new toilet, let's start with the types and features of each one:

Open Back

Open back toilet is where the back of the pan does not touch the wall. This allows for easy access to the pipework at the back of the WC.

Back to Wall

A back to wall toilet is installed directly onto a supportive wall while the cistern can be concealed by a back to wall unit or within the wall itself making them aesthetically pleasing and a space saving option.

Semi Shrouded

A semi shrouded toilet is where the waste pipe and water inlet are semi enclosed within the ceramic, giving access to the pipe but not visible.

Fully Shrouded

A fully shrouded toilet, is where the waste pipe and water inlet are fully within the ceramic, so the toilet sits flush against the wall. This makes it easier to keep clean, with no crevices or germ traps.

Wall Hung

The toilet bowl is mounted onto the wall using a support frame. Like back to wall toilets, the cistern is concealed within the wall, accessible via the flush plate. This makes them aesthetically pleasing and very practical when it comes to cleaning.

Smart WC

Equipped with advanced features like bidet functions, heated seats, and automatic flushing. Enhanced comfort and hygiene, modern technology.

Comfort Height

Comfort height bowls are 440 to 480mm high. A standard height is 400mm. The extra height can be good for the knees and back and can offer other benefits to the taller people, elderly and people with mobility problems.

Low Level

The low level is generally a traditional style toilet which has a connecting pipe from the cistern to the pan. Our medium level toilet is operated by a lever flush.

High Level

This is the ultimate in traditional style, with the cistern positioned high up on the wall behind the pan, with an old-fashioned pull chain flush. The cistern is connected to the pan via a long stainless steel pipe.

Rimless

A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way around the rim, a direct flush technique directs water around the edge of a smooth pan. Rimless toilets are easy to clean and more hygienic than a traditional toilet pan.

What else should I consider?

Space Available:

Measure the available space in your bathroom to determine the size and type of WC that will fit comfortably.

Style Preferences:

Consider the overall design and aesthetic of your bathroom. Modern, traditional, or minimalist styles.

Comfort and Height:

Ensure the WC is at a comfortable height, especially for elderly or disabled users.

Water Efficiency:

Look for WCs with high water efficiency ratings. Dual flush toilets offer options for different flush volumes, saving water.

Installation Type:

Determine if you need a floor-mounted or wall-mounted WC. Wall-mounted WCs can save space and provide a modern look but may require more complex installation.

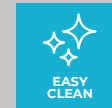

Maintenance:

Consider the ease of cleaning and maintenance. Some WCs have rimless designs or special features that make cleaning easier.

CREA

Our CREA range of WCs comes in rectangular and oval shapes, fully shrouded and wall hung options, SIAMP fittings as standard and slim soft close toilet seats. The CREA range also feature the rimless technology ensuring a easier way to clean and better hygiene.

GEBERIT BATHROOM SOLUTIONS

WALL-HUNG TOILET SOLUTIONS

Geberit wall-hung technology has transformed the look of the modern bathroom, with strong, supportive frames neatly concealed behind the wall. Paired with Geberit WC's, washbasins & furniture, providing the perfect solution for any bathroom.

CHOOSING A WALL-HUNG WC & SUPPORT FRAME

5 REASONS TO GO WALL-HUNG:

NO.1 SPACE SAVING & MAXIMISATION

Attached to the wall - resulting in zero contact with the floor, wall-hung bathroom ceramics and wall-hung furniture have concealed cisterns and installation frames hidden behind the wall resulting in a reduced outward projection. Streamlining the aesthetic of the bathroom as well as delivering acoustic benefits - by opting for a wall-hung toilet or wall-hung furniture you will eliminate the clutter of conventional toilets which take up floor area and create the illusion of a more spacious bathroom.

NO.2 HYGIENE

Unlike close-coupled and back-to-wall toilet options, wall-hung solutions expose a greater cleanable surface area as there is no pedestal, cistern or exposed pipework leaving little space for germs or dust to accumulate. This makes wall-hung toilets the ideal choice for hotel lobby washrooms and workplaces.

NO.3 STRENGTH & DURABILITY

Geberit wall-hung toilet and furniture options are built to last. Contrary to popular belief, wall-hung solutions can withstand a weight of up to 400kg - which is the equivalent of a full grown polar bear. Once installed, Geberit wall-hung solutions have been cleverly designed for maintenance as the cistern can be easily accessed by simply removing the flush plate, ensuring hassle-free specification.

NO.4 AESTHETIC ENHANCEMENT

If you are looking to create a sleek and sophisticated design, specifying a wall-hung toilet or furniture will provide a modern yet functional washroom solution. Wall-hung toilets come in a comprehensive range of styles from rounded to square - with options for every project type and budget.

NO.5 REDUCED SANITARY SOUND

Opting for a wall-hung toilet solution is a sure-fired way to reduced sanitary sound in any washroom. Raising the toilet off the ground stops noise travelling directly from the toilet pan to the floor.

FRESH AND CLEAN AT THE TOUCH OF A BUTTON

GENTLE PERSONAL HYGIENE

The additional shower spray of the gentle lady shower ensures safe personal hygiene with pure water. The nozzle integrated in the spray arm remains protected when not in use.

FRESH AIR IN THE BATHROOM AT ALL TIMES

The odour extraction unit serves to eliminate unpleasant odours before they can spread. The system starts automatically as soon as someone sits down on the shower toilet.

GENTLE DRYING

The additional shower spray of the gentle lady shower ensures safe personal hygiene with pure water. The nozzle integrated in the spray arm remains protected when not in use.

PERFECTLY USER-ORIENTED

The built-in proximity sensor allows functions such as water heating, heated seat and the orientation light to start automatically.

PERSONAL WELL-BEING PROGRAMME

All of the shower toilet functions can be controlled in an instant. The remote control offers a quick overview and allows all actions to be taken with one hand. A push of a button is all it takes to call up personal settings.

COMPREHENSIVELY CLEAN

The oscillation function gently moves the spray arm back and forth for even more thorough cleaning.

PRIMARYLY TOUCHLESS

The toilet lid opens and closes automatically thanks to the proximity sensor.

PERFECT CLEANLINESS

For the last 40 years, Geberit has been continuously perfecting the spray functionality along with the centrepiece of every shower toilet: the shower spray.

The innovative WhirlSpray shower technology enables particularly thorough and pleasant cleaning thanks to the dynamic aeration

SOFT NIGHT TIME ILLUMINATION

A discreet, automatically activated light in seven selectable colours and five brightness levels assists orientation at night.

SUPERIOR COMFORT

The ergonomically optimised WC seat made of high-quality thermoset has integrated seat heating.

HYGIENE MADE EASY

Thanks to intelligent technology

RIMLESS CERAMIC PAN WITH TURBOFLUSH TECHNOLOGY

With its globally unparalleled flushing-out performance, the TurboFlush technology flushes more cleanly, more economically, and much more quietly than a normal flush. The innovative technology also cuts down significantly on cleaning effort and means the traditional toilet brush is no longer required after using the toilet.

SIMPLE REMOVAL OF SEAT AND LID

The QuickRelease function allows the WC seat and lid to be removed effortlessly in a single step to make cleaning quick and easy. The fastenings also remain free of deposits.

DESCALING

A specially developed descaling programme removes deposits from all water-bearing parts making descaling easy. The remote control and the control panel both show when descaling is required.

CONSISTENTLY CLEAN

The automatic pre- and post-cleaning process ensures that the spray arm itself is really clean. The spray arm is automatically rinsed with fresh water before and after each use and the spray nozzle is also rinsed clean with water in its park position.

RIMFREE CERAMIC PAN

The Rimfree ceramic pan makes ensures perfect hygiene. Thanks to its optimised water guide, the entire inner ceramic surface is completely rinsed for much easier cleaning. And since it is rimless, there are no hidden areas where deposits can build up.

KURVO DOUBLE ENDED BATH ROUND

The double-ended round bath presents a harmonious blend of functionality and aesthetic appeal, ideal for contemporary interiors. This bath, nestled gracefully into the bathroom layout, contrasts the typical free-standing models with its integrated design, allowing for installation flush with bathroom walls or within a bespoke enclosure. Crafted from durable materials, this bath not only promises a long-lasting presence in any home but also offers a modern twist on traditional comfort, turning any bathroom into a haven of relaxation.

MILAN DOUBLE ENDED BATH SQUARE

This square double-ended bath redefines modernity with its bold, geometric silhouette. This design merges sharp lines with symmetrical aesthetics, making it a standout feature for any contemporary bathroom. Both ends of the bath are identically shaped, allowing users to relax at either side with equal comfort and space, making it perfect for sharing. The squared contours not only contribute to a sleek, modern look but also maximize the internal bathing area, providing ample room for a deep and relaxing soak. This model combines functionality with style, embodying a minimalist yet luxurious approach to bathroom design.

CARRON BATHS

Carron Baths are hand finished to the highest quality and the complete range includes: Rectangular, Freestanding and Shower baths. Coupled with shower screens, panels and accessories.

Niko Bathrooms is the sole distributor of Carron Baths across the Republic of Ireland.

CARRONITE™ TECHNOLOGY

What is Carronite™? Carronite™ was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers. All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite™ baths, with our unique, patented, triple-layer reinforcement system come with a 30 year guarantee – proof of the confidence we have in Carronite™.

Carronite™ baths are stronger and heavier than standard acrylic baths. The additional finishing layers crafted during the Carronite™ process create a uniquely reinforced product. The added weight requires a bespoke fitting system that only adds to the stability and rigid feel of our Carronite™ baths. These elements combined help deliver the Carronite™ experience. Due to the extra finishing layers, Carronite™ baths are able to keep water temperature levels hotter for longer. Up to thirty minutes longer in some tests.

The Frame

Created specifically for the Carronite™ Baseboard, this unique frame, and foot set uses the added weight and thickness of our baths to deliver additional stability and security.

The Finish

Specially formulated, our unique Carronite™ finish results in increased rigidity while the density of the material allows greater heat retaining properties.

The Base

Custom baseboards, cut to size for each Carronite™ model, are applied by hand before the Carronite™ finish is applied.

Note : Special Order Carron Product , 4–6-week delivery from Date of order*

BUILT IN BOX

FOR WALL MOUNTED BASIN MIXER

REMER
RUBINETTERIE

Compared with the traditional built-in mixer with diverter, the Remer built-in box has additional features that make it an item that was specifically designed for the construction sites needs. However, these boxes are becoming increasingly popular with end users due to their practicality. When designing your new bathroom it is important to consider the development stages for each of your bathroom fixture. These first fix boxes allow your plumber to get the pipe work ready for the installation of your new basin mixer while you have the time to consider which basin mixer design would suit your bathroom. Then simply choose from the mixer designs below.

AKW ARKA CARE SHOWER VALVE

This gorgeous, simple to use Chrome Mixer Shower provides a stunning centre-piece to any shower. It features an easy-grip shower head with five different spray patterns and simple push buttons to adjust the height of the shower head. This package combines the popular Mixer Shower along with our Mixer Shower Care Accessory Kit which mixes ultimate style and a subtle design along with strong support when showering such as the sturdy stainless steel grab riser rail and extended 2 meter long shower hose which is a great help for assisted showering.

Features:

- ▶ Integral stainless steel grab riser rail for additional support and peace of mind
- ▶ Easy grip shower head with grey rubber petals for quick spray pattern adjustment
- ▶ 5 Spray pattern settings for maximum showering comfort
- ▶ Extended 2 meter shower hose ideal for assisted showering
- ▶ Easy push buttons for shower head height adjustments
- ▶ Soap dish & shelf included as standard and situated within easy reach for user
- ▶ Additional shower head bracket for alternative positioning within the enclosure
- ▶ Hose retaining ring included to prevent shower head being dropped and contaminated
- ▶ 1 metre riser rail can support up to 150kg
- ▶ Fully approved by the Bathroom Manufacturers Association (BMA) as a Water Efficient Product

SHOWER TRAY COLLECTION

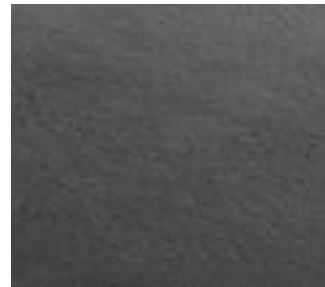

MINERAL SLATE STONE RESIN SHOWER TRAYS

The Mineral Slate ultra-low profile shower trays are expertly designed to complement all the latest bathroom trends. These solid and dependable trays feature a stone resin, slip-resistant slate textured finish that adds both style and safety to your space. Traditional cast stone construction ensures durability, while their quick and easy installation makes them a practical choice for any bathroom.

With top access waste, these trays allow for effortless service and maintenance, making upkeep hassle-free. Tested to conform with BS EN 14527 standards, the Minerals slate trays are also suitable for less-able installations. Available in 3 stylish colours, they transform any bathroom into a modern and tranquil retreat, achieving a minimalistic wetroom aesthetic without the added costs of tanking.

ELEMENTS SHOWER TRAYS

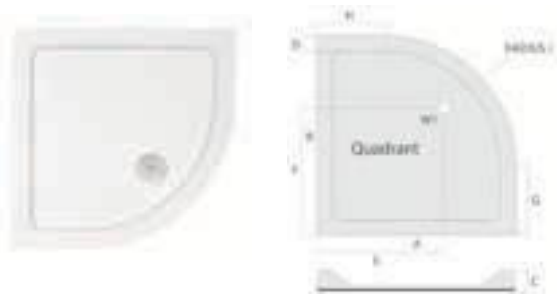

The Elements range of low-profile shower trays is only 40mm high, and they lend themselves to the latest bathroom, including all the benefits of a solid cast stone shower tray. These shower trays suit any installation and are quick and easy to install.

The Elements shower trays are 40% lighter than a high wall stone resin tray, made of a solid cast stone with WRAS-approved phthalate-free materials. With 25 years guarantee, ABS finish and waste position W1.

TUFF FORM WETROOM FORMER

A wetroom maximises the available space in your bathroom, offering a stylish yet practical showering solution. Our Tuff Form shower tray provides full, level access for a seamless and elegant design.

Not only do they ensure completely level access, but they are also 100% watertight, offering superior strength and rigidity. This guarantees excellent water integrity, while ensuring comfort and safety underfoot.

All prices include VAT | All dimensions are Height x Width x Depth and in mm

TUFF FORM WETROOM FORMER

Features

- Suitable for both wooden and concrete floors
- Compatible with both gravity and pumped waste systems
- Tuff Form formers can be trimmed on three sides by up to 150mm around the waste area
- The ribbed underside design prevents slippage or floating during installation
- Provides superior strength and rigidity, ensuring excellent water integrity, comfort, and safety underfoot
- Pre-formed fixing holes for ease of installation
- Offset waste position to avoid joists and pipework
- Tuff Form depth is 22mm
- Fully recyclable and made from reusable plastic
- Installed in tens of thousands of locations worldwide, popular and proven

FURTHER DOC M PRODUCTION INFORMATION

DOC M Fully compliant to BS8300:2009 guidelines for a unisex accessible WC. **2 tap hole wall mounted wash basin** This allows a mixer tap to be fitted left or right handed and with overflow for additional hygiene. **Thermostatic sequential mixer tap** TMV3 approved offering peace of mind to reduce risk of scalding, the thermostat is within the mixer (and not separate, as in the case of others). This reduces the risk of legionella bacteria forming between separate parts. **Easy operational flush handle** Allowing for flushing with elbow or hand. This also offers full and half flush operation for water saving. It comes in a non reflective stain chrome finish and can be fitted left or right handed. Conforms to EN 997. **Raised height WC** Set at 460mm high (480mm with toilet seat), its specially designed for wheelchair access. It comes with 4 fixing points. **Ergonomic toilet seat with lid** Metal hinges and lugs secure the pan for easier side transfer. In some doc m options its available in high visibility blue got users with impaired vision. **Cistern** Has a screw down lid for security and safety. **Grab rails** 4 x 600mm long with concealed fixings (tested up to 190kg/ 33 stone weight). In some doc m options its available in high visibility blue got users with impaired vision. **Fold up grab rails** Tested to 190kg/ 33 stone weight. In some doc m options its available in high visibility blue got users with impaired vision.

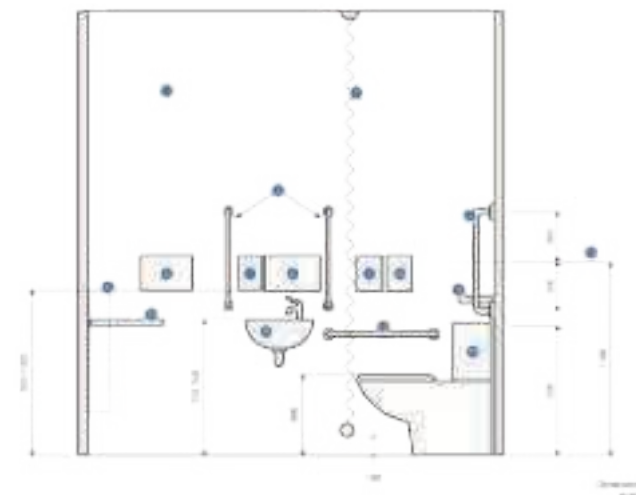

DOC M PACK TYPICAL LAYOUT

1. Sanitary dispenser
2. Alternative door position
3. Waste disposal bin
1. Shelf, installed 760mm above finished floor level
2. Wheelchair turning space (1500 x 1500mm)
3. Long mirror
4. Wall A (see side view)
5. Wash basin, this should project no further than 250mm from wall
6. Vertical grab rails
7. Mixer tap, installed on side of basin nearest WC
8. Two clothes hooks, installed 1050mm and 1400mm above finished floor level
9. Alarm pull cord
10. Horizontal grab rail
11. Sanitary disposal unit
12. Fold-up support rail
13. Vertical grab rail
13. Flush mechanism, installed on side of cistern furthest from wall
14. Flat-topped, close-coupled cistern, provides back rest and colostomy bag changing surface for standing users*
15. Horizontal pull rail on outward-opening door
- 16.

*Where low-level cisterns are used, a rail with padded back rest should be provided, and a colostomy bag changing shelf installed 950mm above finished floor level. Dimensions shown in millimetres. NOTE: Examples shown are for right-handed transfer to WC

Doc M installation - Side View

1. Wall A (see plan view) Alarm pull cord with two red bangles
2. Vertical grab rails installed above wash basin 500-700mm apart with basin positioned centrally below colostomy bag changing shelf, installed 950mm above finished floor level*

DISCLAIMER

All prices are recommended retail and include VAT at the current rate. The prices and specifications shown within this catalogue are for information purposes only and as we continually update our products, they may be subject to change without prior notice. E&OE. The images/photographs included are for guidance purposes only and are limited to the constraints of the printing process. All measurements are in millimeters, unless otherwise stated. This edition supersedes all/any previous editions. Though all of our products carry a guarantee, as stated, which covers against manufacturing defects when used in normal domestic applications (excluding serviceable parts, accidental damage neglect or abuse), please ensure that your product is fitted/installed by a qualified installer and according to the manufacture's instructions. Certain movable parts may be subject to wear and tear through usage and are therefore covered for 12 months from installation – unless otherwise stated. The guarantees stated will never cover any consequential loss. Full terms and conditions are available upon request.
